Audrey:

You also have access to the CES Chemical Spill Response Site. It has information and analytical for the spill along with analytical data.

Thanks

Subject: EPA OSC Website CES Access

Hi Gary,

It was great meeting you yesterday! I really appreciate you taking the time to talk with us about CES. It will help so much as I'm reviewing the site files and writing the Preliminary Assessment.

I tried to log into the EPA OSC website again this morning but was unable to see the CES files. I called the ERT customer support and they said I'm not on their list to have permission to view the files. Could you try requesting they add me to the list again?

Thanks a bunch!

Audrey Smith
